

CONSULTATIONS

Consultations can be designed to suit your requirements

Gardens On The Go

Services Offered

GARDENS ON THE GO provide a range of horticultural services to the domestic and commercial market.

- Consultations for new or existing gardens
- Problem solving for those difficult areas
- Design new gardens
- Renovate existing gardens
- Balcony or penthouse gardens
- Supply and install plants
- Maintenance calendars

From a basic consultation, through to design and installation of the garden. To ensure that the garden stays looking good we can provide a twelve month maintenance plan to allow the client to work on their own garden if desired. Alternatively they can use our personalised maintenance plan for their own maintenance gardener to use. If maintenance is required we have a professional network of contractors throughout Sydney that can do the job.

Garden Consultations

Your home is the biggest investment you will ever make. It makes sense to maintain that investment. Having a beautiful garden can increase the value and appeal of your home.

If you answer yes to any of the following questions then maybe you should consider having a garden consultation.

- Do you want to enhance your home with a stylish garden?
- Not sure what to plant in your garden?
- Sick of buying plants that never seem to thrive?
- Does everything you plant in your garden die?
- Do you find that there is too much work involved in looking after the garden?
- Are you worried about using too much water in the garden?
- Do you feel confused when you go to a nursery to purchase plants?
- Would you like to learn more about plants, gardening or maintaining your garden?

Having a garden consultation by a qualified and experienced horticulturist will not only add value to your home but will actually save you money. Correct plant selection will mean that the plants you put in will actually grow well because the right plant is chosen for the site.

What does the consultation involve?

GARDENS ON THE GO will tailor the consultation to suit your requirements. When you book a consultation you will be asked a range of questions to enable us to determine your needs for example:

- Have you thought about a particular theme for your desired garden e.g. cottage, native, formal, informal, tropical?
- Approximately what size is your property or the area in question?
- Do you have children? How many? Boys or girls?
- Are there any pets?
- Is there a pool, is it saltwater or chlorine?
- Would you prefer to install the plants yourself?

Do it yourself garden

If you prefer to install the plants yourself, *GARDENS ON THE GO* can conduct an analysis of your garden, to determine which plants are most suitable for the site.

The design concept will be discussed and you will be given a written report on how to prepare your garden before installation along with a plant schedule. The report and plant schedule will be given to you on the day

Let us do it for you

Should you prefer to have the garden installed, *GARDENS ON THE GO* will organise and install your new garden from start to finish. This includes initial site visit, design, plant selection, soil preparation, planting and mulching. And of course equip you with a 12 month step by step maintenance plan.

To ensure your garden gets the best start, all plants are hand selected prior to installation by *GARDENS ON THE GO*.
